

# 1 PROJECT SCOPE

The scope includes the following aspects:-

## Web App Features

1. Need to add a tab/ Link in our existing website [www.theurbannanny.com](http://www.theurbannanny.com)
2. It will be on new domain –dcp4me.com
3. Provision to add date – Due Date or Delivery Date
4. Based on the due date a Category phase will open up Eg: If its 20 the week after delivery then it will open Rehabilitation phase. Rehabilitation phase will be for say 10 weeks. We will provide the phases
5. Provision to display the Daily Care Plan according to the date ( Due Date or Delivery Date)
6. Reminders for action plan on WhatsApp /phone /text
7. Provision to share daily care plan in a PDF format on client's WhatsApp
8. Provision to share daily care plan to any other phone number – WhatsApp
9. Login through Google, FB or Email Id
10. Daily Care Plan, pictures should have the pop up ability for the customer to see better
11. Tick mark the completed one
12. Daily report of Completed Task and Pending Task for the customer
13. History of Completed Task v/s Pending Task
14. The customer can see the Daily Care Plan Backwards, but cannot see forward date
15. Customer can complete pending task any day & put tick mark and accordingly the completed report will change
16. Search Key with drop down at the Activity Bar
17. Search key with Dropdown –  
Eg: if someone types diaper, all information details of diaper – tips, pictures and videos should be shown.  
Drop Down is basically the all task or activity listed. It should pick up any word from there as well
18. Auto welcome email after customer registers
19. Feedback from customer, Phase wise. Auto Feedback Form will open after every phase and post filling up the form only the new phase will open.
20. From The DCP, if a customer wants to save the Pic or The video , Video Link , it should be saved in there Document Folder
21. A note for writing should open up on the side of the DCP for the client to write any note they want. this can be part of the saved documents
22. Output for Each Phase as TEXT will be clearly mentioned below the DCP

23. History of all submitted forms in the client page
24. Urban Nanny when you click the tab, a Short description will open and then click to open the page in another link
25. SIDE MENU on the DCP
