14. WELFAST

Link: <https://play.google.com/store/apps/details?id=com.welfast>

Category: Informatory

Description:

--SHIFT TO OUTPATIENT CARE, A HEALTHCARE REVOLUTION--

According to McKinsey Global Institute analysis:

Over the past decade, there has been a marked shift in the delivery of care from general practitioners (primary care physicians), to specialists.

65% of all healthcare services in the US are already being delivered in outpatient contexts.

Outpatient care accounts for two-thirds of US healthcare spending, making it the fastest growing cost component.

Within the outpatient category, the two largest and fastest growing sources of outpatient spending are same day hospital care and visits to physicians' offices.
